

Salata Student Ambassador Committees – 2025/2026

Community Building Committee

Unite Harvard's climate community to connect, share ideas, and inspire action.

Mission:

Lead the organization of a recurring event series that brings students together to highlight climate-related work, spark cross-disciplinary conversations, and foster a vibrant, climate-minded community.

Key Words:

University-wide community • Connectivity • Engagement

Core Deliverables:

- Host a minimum of 6 Scholar Series sessions (Fall & Spring)
- Develop and implement at least one new community-building idea

Campus Outreach Committee

Bring climate opportunities to every corner of campus. Help ensure every student knows about opportunities to get involved and make an impact.

Mission:

Efficiently promote, distribute, and share climate-related opportunities from the Salata Institute and across Harvard. Reach students in every school and connect them with ways to get involved in climate action on campus.

Key Words:

Awareness • Amplifier • Knowledge sharing (both directions)

Core Deliverables:

- Complete at least 3 tabling sessions at each Harvard school over the academic year
- Create an Outreach Strategy Document for each school (Spring)

Resource Development Committee

Be the go-to source for climate resources. Build tools and resources that empower students to explore and thrive in climate-related academic, professional, and extracurricular pathways.

Mission:

Identify student needs and gaps, then develop toolkits, databases, and resources that support students in exploring climate, sustainability, and environmental opportunities—academic, professional, and co-curricular.

Key Words:

Utility • Access • Resources

Core Deliverables:

- Update existing resources (Student Orgs list, Community List, Course Catalogue, etc.)
- Develop one new climate-related, need-based resource or tool
